PAVEMENT MARKINGS

Best Training School - Theoretical Driving Course (TDC) Module

CONTINUITY LINE generally means the lane you are in is ending or exiting and that you must change lanes if you want to continue in your current direction. Continuity lines on your right mean your lane will continue unaffected.

What is the correct speed when entering the expressway?

Follow the speed of the vehicles within the expressway.

GIVE WAY or HOLDING LINES are markings consisting of a two adjacent broken white lines across the carriageway at which drivers must give way to all traffic in accordance with the standard sign.

ROUNDABOUT HOLDING LINES vehicle within the rotunda have the right-of-way over vehicles which are just about to enter.

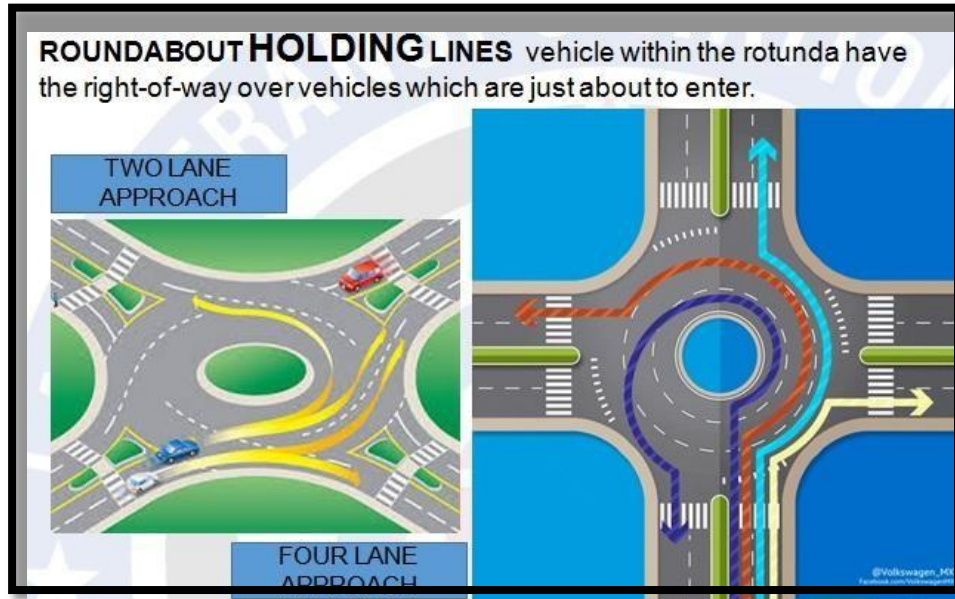

TRANSITION LINES are used to guide traffic safely past obstructions on roadways such as islands, median strips, bridge piers or indicate changes in the width of the traveled portion of the roadway and an increase or reduction in traffic lanes.

What are the meanings of these colored curbs?

TRAFFIC LIGHTS

- a **RED SIGNAL** means you must bring your vehicle to a Stop at a clearly marked line.
- **FLASHING RED SIGNAL** means bring your vehicle to a Stop and proceed only when it is safe to do so.

- a **YELLOW SIGNAL** indicates that the Red Signal is about to appear.
- **FLASHING YELLOW BEACON** - when a flashing yellow signal is incorporated with an overhead beacon or a beacon located directly above a warning sign, it warns you to proceed with caution.

- a **GREEN SIGNAL** means you proceed, provided you yield to pedestrian and traffic lawfully using the intersection.
- **FLASHING GREEN SIGNAL** – when a flashing green signal or a left turn green arrow with a green signal is used, it permits the vehicle facing that signal to turn left, turn right or go through while opposing traffic faces a red signal.

PROPER HAND SIGNALS

The diagram shows three scenarios of a driver in a red car making hand signals. In the first, the right arm is bent at the elbow with the hand pointing up. In the second, the left arm is extended straight out. In the third, the right arm is bent at the elbow with the hand pointing down.

Right Turn **Left Turn** **Stop**

DRIVER'S BASIC HAND DESTINATION SIGNALS

Used to control pedestrian traffic at intersections where there is conflict between vehicle and pedestrian movement. While these pedestrians are crossing the roadway, they have the right-of-way over all vehicles.
